"This is one of my favorite games because of the different levels and how easily it takes all my free time. It would be cool if there were different games you could play with friends online and offline. Also, I would be better off if you could actually get coins without spending your real money on them through in-app purchases or by downloading another game that requires real money. It would also be cool to have a way to actually get coins and lives without having to pay for them." "I love this game because anyone can play it, anytime, anywhere. But I just don't quite understand how they are trying to make money. You have these extra lives you win from watching videos or playing other games, but they are not enough unless you spend your actual lives on them through in-app purchases or by downloading another game that requires real money. I would give this game five stars except for the fact that I feel like there's a lot of potential wasted on how they are trying to make money. Hopefully the developers will change their ways. I would love to give this game five stars because the graphics are good, and it is entertaining."

A sequel to the "Coin Master" series was announced in 2013 titled Coin Master: Space Invaders "(Kasegi 3: Aratanaru Jettsuu)", previously known as "Coin Master 2." This sequel, which would feature the original coin-collecting gameplay, was originally scheduled to be released on April 27, 2014. However, it was released on July 2, 2014."

In 2011 Moon Active released Coin Master for iOS and Android as a free download. This version of the game is completely free and removes all in-game advertisements. However, it now requires a \$0.99 "micro transaction" in order to advance to the next level",

Boring by tommissausage on 2016/10/31 12:19 With over six hundred levels of play, this game should get a lot more attention. Don't get me wrong, the graphics are good and the gameplay is engaging, but it's just so bland and uninspiring. It's like a run of the mill jigsaw puzzle with puzzles you've seen before. It also never lets up with adds and very little feedback when you successfully complete a game level. There should have been some form of ending criteria as well as feedback on your performance in game mode. Simply put: it's just boring",
